Hello,

**RE: Response to letter dated December 21<sup>st</sup> 2016**

Our company deals with selling apartments in properties in Israel and in properties in Judea and Samaria. Our company employs thousands of Palestinians every day.

All of the properties in construction are private properties purchased from the Palestinians. We find the way the facts are presented very severe, things are presented as though we are occupying just because our company is Jewish.

There is no international law forbidding us from purchasing land by law from the Palestinians, and that is what we do.

Any reference from any factor presenting our company as one that supports the occupation or anything of that sort will be sued for defamation.

Our company acts with integrity, by the Israeli law and by the international law as well.

Sincerely,

H.Y.S. Nofei Israel LTD
